PROFESSIONAL EXPERIENCE

DELOITTE TOUCHE TOHMATSU LIMITED | New York, NY

Senior Consultant, Federal Healthcare Agency Division

Nov 2024 – Present

- Provide financial management and operations support for a \$900M federal healthcare agency division to improve budget planning, monitoring, execution, and closeout processes and tools
- Manage a division-wide data warehouse hosted on Microsoft SQL Server; leading data integration and transformation, including extraction and load (ETL) packages for data warehousing, using SSMS to manage SQL infrastructure
- Develop, manage, and maintain 60+ financial management reports, dashboards, and budget tools; providing technical support and demos to reduce labor-intensive manual processes for decision-makers
- Develop and enhance dashboards to visualize Spend Plan data and allow clients to keep track of spending and reconciliation
- Overhaul existing cost model and dashboards to account for new data inputs
- Utilize TBM data to perform various research, analyses, and ad hoc requests for clients

REFERENCE POINT (ACQUIRED BY RGP) | New York, NY

Data Consultant

Aug 2021 – Sep 2024

- Served as project lead for a Top 10 Bank merger project, creating a prioritization model to assess risks and determine task sequencing while conducting rigorous testing and scenario analyses to ensure seamless integration
- Provided analytical support across enterprises for a Fortune 50 Financial Services Firm's Data Governance strategy implementation
- Established a Reporting Center of Excellence operating model for a farm credit bank to streamline data management and report processes, developing project deliverables to restructure the operational model and implement data management capabilities
- Collaborated with marketing and internal operations to streamline processes, including automating invoicing through macro development and implementing a risk identification tool to mitigate employee burnout
- Facilitated DE&I metrics tracking groups, tracking key actions and delegating responsibilities to ensure an effective operating model

EMPATHETICS | Boston, MA

Analytics Consultant (Pro Bono)

2021 – Present

- Analyzed extensive data and extracted insights to enhance training effectiveness for healthcare providers on bedside manners
- Developed a metrics model and customized analysis with visual dashboards to track performance improvements
- Delivered compelling narrative presentations to senior leadership to facilitate decision-making processes on strategic initiatives
- Designed survey intake forms for new patients to efficiently collect data and gather insights for improving patient care experiences
- Spearheaded data strategy initiatives, including current state assessments, goal alignment, roadmap development, and execution

CONSTRUCTIVE PARTNERSHIPS UNLIMITED | New York, NY

S. McArthur, MBA Resume – Cont'd

Data Analyst Fellow

June 2020 – Sep 2021

- Led a project to visualize return on investment for the State of New York and assess the financial stability of a \$1.2 million grant from the Dormitory Authority of the State of New York (DASNY), analyzing data to formulate strategic recommendations
- Directed the creation of a data collection template for 700 residents across 105 residences in NYC, aimed at optimizing negotiations with the Centers for Medicare and Medicaid Services (CMS) for improved premium rates and cost-saving opportunities
- Conducted in-depth analysis and visualization of palliative care impact on hospitalization rates and length of stay, informing strategic improvements in medical care delivery and identifying opportunities to optimize patient outcomes
- Developed and delivered a SQL workshop, providing tailored materials to empower employees with accessible informational resources, enhancing professional development and self-sufficiency in data management

INTELLIHEALTH | New York, NY

Data Analytics Intern

Nov 2020 – Mar 2021

- Collaborated with cross-functional teams including product marketing, engineering, and customer success divisions to assess application data collection capabilities for both internal and external third-party sources
- Refined new data infrastructure and informatics for analysis of comorbidity occurring in patients with obesity, using SQL and Domo

DELOITTE TOUCHE TOHMATSU LIMITED | New York, NY

Junior Advisory Consultant

Sep 2016 – July 2019

- Oversaw predictive analytics and ETL processes to formulate business solutions for risk management and data migration initiatives
- Mitigated potential financial damages for institutions facing data integrity fines of up to \$5 billion by analyzing big transaction data
- Collaborated with a team of five to streamline process flows, delivering model risk management assessments ahead of schedule
